Choose Your vehicle

KYBURZ DXS

The KYBURZ DXS is a workhorse with a high load capacity. It is identical in construction to the proven delivery vehicle DXP used by the post office, so there is no need to search for a parking space.

Distribution and logistics jobs for businesses, local councils or just around town are reliably completed emission-free with the DXS electric vehicle.

Assemblies and trailers turn the KYBURZ DXS into an efficient service vehicle for commercial and municipal purposes.

- ✓ High payload capacity
- ✓ Low maintenance cost and nationwide service
- ✓ Customizable storage

Specifications

Maximum speed	10 / 20 / 30 / 45 km/h
Range	up to 160 km
Electricity consumption	4 - 8 kWh / 100 km
Charging time	8 - 14 hours
Dimensions (LxWxH)	200/80/125 cm

[Technical specifications \(pdf, 123 KB\)](#)

KYBURZ DXP

KYBURZ DXP are in service in many national postal services and private companies.

In Iceland, Norway, Finland and Switzerland, KYBURZ DXP already covered a distance of more than 150 million km.

For years, KYBURZ has learned from posties and the experience of service technicians to improve the technology and handling of their three wheeler.

The KYBURZ DXP is a robust example of high engineering standards born from decades of electric vehicle design by the KYBURZ team in Switzerland. It has been produced to serve customers reliably for many years, and fully complies with relevant industry norms.

- ✓ High payload capacity
- ✓ Low maintenance cost and nationwide service
- ✓ Customizable storage

Specifications

Top speed	50 km/h
Range	up to 120 km
Climbing capacity	up to 30 %
Batteries	LiFePo4 / 302 Ah
Charging time	8 hours
Motor	AC 24 V / 3.5 kW
Dimensions LxWxH	233 / 100 / 181 cm
Curb weight	315 kg
Total weight	510 kg
Cargo capacity	120 kg / 0.6 m3

[Technical specifications \(pdf, 123 KB\)](#)

A Legacy of Innovation Since 1991

Our Heritage

Martin Kyburz founded KYBURZ Switzerland AG in 1991. It is located in Freienstein (Zurich, Switzerland).

KYBURZ is an SME which employs around 150 people. It develops and produces high-quality electric vehicles for the delivery and industrial sectors, as well as the private market.

Over 30,000 KYBURZ vehicles are in use around the world; the best-known model, the KYBURZ DXP, is used as a delivery vehicle for the postal service and has now become a familiar sight on Swiss roads.

The warranty for the service and maintenance of its products is one of the company's highest priorities as well as being an important line of business.

Finding pleasure in development while focusing on sustainability and environmentally friendly methods and products KYBURZ Switzerland AG is looking forward to the future and can build on its solid basis of craftsmanship and many years of experience.

Meet the Australian Team

The dedicated professionals behind KYBURZ Australia, Committed to delivering excellence in electric mobility.
